This questionnaire can help instructors improve the quality and effectiveness of their teaching. The college administration will also use it in faculty evaluation. Please answer thoughtfully the questions printed below. After, and only after, you have answered the questions on this page, respond briefly to the specific questions on the back of this form. This form will not be returned to the instructor until after grades have been turned in.

1. What elements of the course and instruction did you find most helpful to the accomplishment of the course’s goals?

The lecture notes and the examples Dr. Foley went over in class. If I fully grasped those, then I always felt prepared for the tests.

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?

Some of the lab work. Some labs I felt like I was just plugging numbers and doing calculations in excel, but the big picture of how the material connected back to statistics was often missing.
Below is a list of questions, not all of which may be applicable to this course. Please answer those which are applicable with a single concise sentence.

1. Describe your own motivation and performance in this course.
   Very high motivation and effort.

2. Evaluate the instructor's organization of this course.
   Very organized.

3. Evaluate the quality of the lectures.
   Generally great, but the student's perspective was always very informative and when I looked back on the notes, I was able to pick things together.

4. How effective and fair were the reviews and tests given throughout the term?
   Really really, very reviews, but they were fair.

5. How effective and fair were this course's writing assignments?
   Not at all.

6. Was written work evaluated fairly and returned within a reasonable time?
   Yes.

7. Describe the effectiveness of team teaching in this course.

8. To what extent were you encouraged to think for yourself in this course?
   Frequently or paper topic, a lot.

9. Evaluate the instructor's preparation for the class and/or laboratory.
   Always extremely prepared. The slides are a fantastic help.

10. To what extent did the field trip(s) contribute to your learning?

11. Evaluate the quality of the laboratory/studio/workshop sessions in this course.
    Labs sometimes were redundant for me, but other times helpful.

12. Comment on the quality of the texts, equipment, or facilities for this course.
    I didn't find that I needed to use the book in addition to the slides in class.

13. If it was needed, to what degree was help outside of class available and productive?
    Always there.

14. Evaluate the effectiveness of class discussion in this course.

15. Evaluate the course as a whole.
    Really tough, very course, but you learn a lot!

16. Evaluate the instructor overall.
    Mr. Foley was a great teacher and always had a great attitude.
    He was very helpful and made a tough subject understandable.

Term, Year          Fall 2011          Instructor        Foley, Mark

This questionnaire can help instructors improve the quality and effectiveness of their teaching. The college administration will also use it in faculty evaluation. Please answer thoughtfully the questions printed below. After, and only after, you have answered the questions on this page, respond briefly to the specific questions on the back of this form. This form will not be returned to the instructor until after grades have been turned in.

1. What elements of the course and instruction did you find most helpful to the accomplishment of the course's goals?

   The final paper has been very helpful for understanding, and the first presentation in class helped me understand the basics of the paper ahead!

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?

   Everything was helpful, only thing would be to answer questions more fully (with logic clear enough to follow) on some of the online practice tests (so you don't have to get so many emails!).
Below is a list of questions, not all of which may be applicable to this course. Please answer those which are applicable with a single concise sentence.

This form will not be returned to the instructor until after grades have been turned in.

1. What elements of the course and instruction did you find most helpful to the accomplishment of the course's goals?

   Take-home exams if you test. Even though it was often a giant rain cloud that hovered over my week, letting me take the test at any time and in as many sitting as needed helped a ton. I am really glad I did not have to take short tests that were timed in class (too much into to cover).

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?

   The lectures. The lectures were extensive but they were hard for me to follow. When I was lost, I was too lost to ask questions.
   (That's on me, not Dr. Foley).
Below is a list of questions, not all of which may be applicable to this course. Please answer those which are applicable with a single concise sentence.

1. Describe your own motivation and performance in this course.
   10, 7.5 I was motivated, just really hard.

Please answer thoughtfully the questions printed below. After, and only after, you have answered the questions on this page, respond briefly to the specific questions on the back of this form. This form will not be returned to the instructor until after grades have been turned in.

1. What elements of the course and instruction did you find most helpful to the accomplishment of the course's goals?

   The book was ultimately the most useful tool.

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?

   Since there was neither enough homework to thoroughly learn the material, nor enough suggested problems, any additional suggested problems, I ended up reading and doing problems from the book soon before the test. Because of this, I often found it impossible to follow lectures. I would encourage Dr. Foley to have a more concrete way of getting students to learn the material from the book, for example, increasing the graded homework tenfold.

This form will not be returned to the instructor until after grades have been turned in.

1. What elements of the course and instruction did you find most helpful to the accomplishment of the course’s goals?

I found there to be lots of relevant assignments which gave us the opportunity to practice and re-enforce what was learned in class. I also thought that Dr. Foley was extremely available and willing to answer questions and help students. The course was overall very good and fully adhered to the schedule and goals.

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?

I found the powerpoint format to be combative to my personal earning style. Also, I think the class could be improved if some examples in excel were fully worked out in class as opposed to just showing them on slides.
Below is a list of questions, not all of which may be applicable to this course. Please answer those which are applicable with a single concise sentence.

1. Describe your own motivation and performance in this course.

   2. Stuff written on board during lecture
   3. Explanation of slides during lecture
   4. Office hours
   5. Labs
   6. Homeworks
   7. Reading the book

   Such a helpful professor. Very few complaints. Clearly explaining difficult concepts.

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?
   - There was a lot of material on the third test. I wish there had been more
     time for first and second tests and less in between second and third.
   - I never understood any of the proofs when we went over them in class, perhaps due to my own inadequacies but they were done quickly and I was always confused.

Please answer thoughtfully the questions printed below. After, and only after, you have answered the questions on this page, respond briefly to the specific questions on the back of this form. This form will not be returned to the instructor until after grades have been turned in.

1. What elements of the course and instruction did you find most helpful to the accomplishment of the course's goals?

   Well it was nice to have a large backlog of old reviews. In general, the electronic availability of everything was great. I mean, pretty basic, good overall.

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?

   Especially early on, seemed to teach way too fast. But get better. That might have been a problem on my end. Otherwise, Dr. Foley was pretty much teaching from the slides. I'd just get the book if I didn't get something.

   Oh, and the group presentation had too little of a grade impact. 3%? Almost seems patronizing.
Below is a list of questions, not all of which may be applicable to this course. Please answer those which are applicable with a single concise sentence.

1. Describe your own motivation and performance in this course.
   I was pretty motivated; I am a major after all. Performance has been so-so. Improv

    I may have needed it, but didn't use it.

14. Evaluate the effectiveness of class discussion in this course.
    N/A

15. Evaluate the course as a whole.
    Eh, I'm not the biggest fan of statistics as a discipline.

16. Evaluate the instructor overall.
    Did a good job.
This questionnaire can help instructors improve the quality and effectiveness of their teaching. The college administration will also use it in faculty evaluation. Please answer thoughtfully the questions printed below. After, and only after, you have answered the questions on this page, respond briefly to the specific questions on the back of this form. This form will not be returned to the instructor until after grades have been turned in.

1. What elements of the course and instruction did you find most helpful to the accomplishment of the course’s goals?
   The professor was usually available and willing to help. A lot of the class material is difficult to understand, but he was often available to work individually outside of class to make sure each student was able to understand the ideas presented in class. Also, the lab time was very helpful because it allowed us to another opportunity to practice the application of formulas and tests learned in class.

2. What elements of the course and instruction did you find least helpful? What changes, if any, do you suggest?

   None
Below is a list of questions, not all of which may be applicable to this course. Please answer those which are applicable with a single concise sentence.
